LinkedIn: <https://www.linkedin.com/in/thunuguntla-naga-vaishnavi/>

CAREER OBJECTIVE:

“Aspiring Software Developer seeking an opportunity to apply my technical skills, contribute to meaningful projects, and grow professionally in a collaborative environment.”

EDUCATION:

Bachelor of Technology (Computer Science Engineering)	2021-2025
Vignan's Nirula Institute of Technology and Science for Women, Guntur.	CGPA 8.63/10
University: JNTU Kakinada	
Intermediate (MPC)	2019-2021
Sri Sarada College, Vijayawada.	Marks 929/1000
SSC	2018-2019
Sri Chaitanya School, Sattenapalli.	CGPA 9.8/10

EXPERIENCE:

Infosys Springboard *March 2024- July 2024*

Project: Online Food Ordering System

Technologies Used: Python, Django.

- Streamlining online food ordering by offering a user-friendly platform for browsing menus, placing orders, and paying seamlessly.
- Developed the project using Python, Django, HTML, and CSS, ensuring user-friendly design.
- Led a team of 4 members, coordinating tasks and responsibilities to achieve efficient collaboration and complete the project within the timeline.

PROJECTS:

1. Weather Forecasting Application:

Technologies Used: ReactJS, HTML, CSS.

- Developed a responsive weather forecasting web application using React.js and Weather API integration for real-time weather updates.
- Implemented reusable React components and state management to deliver an interactive, user-friendly, and location-based weather experience.

2. Expense Tracker:

Technologies Used: ReactJS, HTML, CSS

- Built an Expense Tracker application using React.js that enables users to add, delete, and monitor income and expense transactions with automatic balance updates.
- Utilized React state management and component-based architecture to create a responsive and user-friendly interface for tracking personal finances.

3. PCOS detection using XGBoost and SHAP analysis:

Technologies Used: AI/ML

- Built a machine learning model using XGBoost to detect PCOS from medical data. Applied SHAP analysis to interpret the most important features influencing predictions.
- The project focused on improving accuracy while ensuring transparency in results.

TECHNICAL SKILLS:

- **Programming Languages:** ReactJS (TypeScript, Redux, Router), Python, Java.
- **Data Bases:** SQL
- **Web Technologies:** HTML, CSS.

CERTIFICATIONS

- Completed **Python internship** from “**Infosys Springboard**” for 10 weeks.
- Completed **NPTEL**: “The Joy of Computing Using **Python**” with elite rank (63%).
- Completed **NPTEL**: “Programming in **Java**” with elite rank (69%).
- **INFOSYS SPRINGBOARD**: Programming fundamental using **python**.
- **TALENTIO**: Pythocraft completion certificate.
- Participation: Flipkart Grid 4.0, Code Geeks, Code Fiesta.

Date: 02-05-26.
